

USE & CARE INSTRUCTIONS

EASY TO FILL

Wide top allows you to fill with ease.

Filling the Feeder

Step 1: Remove locking metal roof by squeezing the plastic tabs located under the rim and lifting.

Step 2: Pour seed into the wide top.

Step 3: Lock roof back onto feeder by placing it on the feeder opening and pushing down until you hear a click, as the roof locks onto the plastic tabs. Your feeder is now ready to hang.

Cleaning the Feeder

Remove locking metal roof by squeezing the plastic tabs located under the rim and lifting. Hand wash with warm water and a mild antibacterial soap. Rinse thoroughly and let dry completely before refilling with seed. If seed gets caught in the bottom beneath the perches, remove the two screws from the bottom to remove the metal base. To reinstall the base, secure the metal base to the plastic body with the screws. Do not over-tighten.

Squirrel Proof Ports

Ports d'alimentation à l'épreuve des écureuils Deux perchoirs métalliques intégrés équipés de ressorts bloquent les ports sous le poids de l'écureuil. Placez les mangeoires à au moins 4 mètres de toute surface d'où l'écureuil peut sauter. Protégez votre mangeoire des écureuils en utilisant un déflecteur.
